

ABOUT US

DESKBASKET, one stop-shop for a variety of office supplies & stationery items. We have all your stationery needs covered, whether you're in an office, school, hospital or airport. We understand that everyone's requirement is different so provide a diverse range of products to fit all requirements. From general stationery items such as paper and pens, through to cleaning equipment and catering supplies; ensuring that you're prepared for every occasion. Our friendly account managers are here to find your ultimate stationery solution, listening to your specific requirement and serving you in an efficient manner. So whether you need resources for an arts and crafts lesson, clipboards for surveys, a presentation case for architectural blueprints or simply a box of pens for the office, we're here to help. Our team of dedicated account managers and delivery personnel's are ready as ever to deliver all our products at your doorstep.

AIM

DESKBASKET aims to be the largest organized corporate Stationery and Cleaning products retail company of Indian Subcontinent. Create Value chains for the benefit of clients and stakeholders.

VISION

Stationery and cleaning products which are being used are by far unorganized and scattered which results in overpricing, lower quality of the products and creates a web of vendors to be managed for different requirements of an Organization. Our Vision is to provide an integrated solution to companies and institutions for stationery and other office supplies, making it easier for them to manage the requirements.

WHY DESKBASKET ?

Companies worldwide are fast becoming aware of wide-spread unethical practices by local vendors. Unorganized vendors provide counterfeit products, overcharge by short deliveries and substitute brands with local products. Here are three crucial reasons why you should go for DESKBASKET;

- a. Economies of Scale:** Consolidation of office spend with fewer organized suppliers would go a long way in driving economies of scale and bring down the cost of managing large number of fragmented vendor suppliers.
- b. Simplification of Business Processes:** Large corporates increase their transaction costs when they work with hundreds of small scale suppliers for low value spend categories. Lot of organizations fail to take this into account whilst selecting their supplier only for convenience and lower price at the location.
- d. Same Day Delivery:** We take utmost care of our client's needs and provide them their requirements the same day they order from us. We offer same-day delivery to offices, Schools, Hospitals and Other Organizations all over India.
